

What is claimed is:

1. A sheet for an album, the sheet comprising:
a sheet having a binding edge and an opposite, outside edge; and
a film attached to the sheet and extending along at least a portion of the
opposite, outside edge.
2. The sheet of claim 1, wherein the film extends at least about 3/8" from the
outside edge.
3. The sheet of claim 1, wherein the film includes a polypropylene film.
4. The sheet of claim 1, wherein the film is wrapped around the outside edge so
that a portion of the film is attached to each side of the sheet.
5. The sheet of claim 1, wherein the film includes a polyester film.
6. The sheet of claim 1, wherein the film is adhered to the sheet with an acrylic
laminating adhesive.
7. The sheet of claim 1, wherein the film is adhered to the sheet with a heat-
activated adhesive.
8. The sheet of claim 1, wherein the film is adhered to the sheet with a
pressure-sensitive adhesive.
9. The sheet of claim 1, including a second film attached adjacent the binding
edge of the sheet.

10. The sheet of claim 1, further including a plastic overlay at least partially covering the sheet.
11. The sheet of claim 10, wherein the plastic overlay is attached proximate the outside edge of the sheet by the film.
12. A sheet for an album, the sheet comprising:
 - a sheet having a binding edge and an opposite, outside edge;
 - a mounting strip; and
 - a flexible film strip connecting the mounting strip to the binding edge of the sheet such that there is a gap between the mounting strip and the sheet, wherein the flexible film strip is wrapped around an outer, spine edge of the mounting strip.
13. The sheet of claim 12, wherein the mounting strip has a thickness greater than the thickness of the sheet.
14. The sheet of claim 13, wherein the mounting strip is at least twice as thick as the sheet.
15. The sheet of claim 13, wherein the mounting strip includes a folded sheet.
16. The sheet of claim 15, wherein the folded sheet includes a notch located at a fold of the folded sheet.
17. The sheet of claim 12, wherein the mounting strip includes two or more post holes and the flexible film strip is adapted to reinforce the post holes.

18. The sheet of claim 12, further including a second film attached to the sheet and extending along at least a portion of the opposite, outside edge.
19. The sheet of claim 18, wherein the film is wrapped around the outside edge so that a portion of the film is attached to each side of the sheet.
20. The sheet of claim 12, further including a plastic overlay at least partially covering the sheet.
21. The sheet of claim 20, wherein the plastic overlay is attached proximate the binding edge of the sheet by the film strip.
22. The sheet of claim 20, wherein the plastic overlay is attached proximate the outside edge of the sheet by a second film attached at the outside edge of the sheet.
23. A sheet for an album, the sheet comprising:
 - a sheet having a binding edge and an opposite, outside edge;
 - a mounting strip; and
 - a flexible film strip connecting the mounting strip to the binding edge of the sheet such that there is a gap between the mounting strip and the sheet;wherein the mounting strip has a thickness greater than the thickness of the sheet.
24. The sheet of claim 23, wherein the mounting strip is at least twice as thick as the sheet.
25. The sheet of claim 23, wherein the mounting strip includes a folded sheet.

26. The sheet of claim 25, wherein the folded sheet includes a notch at a fold of the folded sheet.

27. The sheet of claim 23, wherein the mounting strip includes two or more post holes and the flexible film strip is adapted to reinforce the post holes.

28. The sheet of claim 23, further including a second film attached to the sheet and extending along at least a portion of the opposite, outside edge.

29. A sheet for an album, the sheet comprising:
a sheet having a binding edge and an opposite, outside edge;
a mounting strip;
a flexible film strip connecting the mounting strip to the binding edge of the sheet such that there is a gap between the mounting strip and the sheet; and
a plastic overlay attached to the sheet and covering at least a portion of the sheet.

30. The sheet of claim 29, wherein the plastic overlay is attached proximate the binding edge of the sheet by the film strip.

31. The sheet of claim 29, wherein the plastic overlay is attached proximate the outside edge of the sheet by a second film attached at the outside edge of the sheet.

32. The sheet of claim 29, wherein the plastic overlay is a clear plastic overlay.

33. The sheet of claim 29, wherein the plastic overlay includes a approximately 0.001" to approximately 0.003" polypropylene sheet.

34. The sheet of claim 29, wherein a static charge is applied to the plastic overlay.
35. The sheet of claim 29, further including a second plastic overlay applied to an opposite side of the sheet.
36. The sheet of claim 29, further including an adhesive applied to the sheet to hold the overlay against the sheet.
